Jewel Is A Dairy Food Shop !

Jewel brings a bit of the country to town every day. Dairy foods are rushed from the farm to your store early every morning. There's milk. . so cool, so refreshing, so dairyland fresh. And eggs... the kind that make breakfast a special occasion... each with a yoke that's firm and white that separates beautifully. All your diary food favorities... butter and ice cream and scores of cheeses. They all come to the dairy food shop at your Jewel fresh-from-the-farm daily. It's like having the country right at your store!

Reporter Survives 2-Mile Run

What Makes Harrier Run?

BY RALPER NOVULTY isn't a van one of those sports that look easy. But the real problem comes in when you're reminded, at I was yeterday, thet it's a lot harder than it look that badly. The 1940 it took me to run the 1.9 mile prospect course is only 10.40 off the course record set by Maline West's Lee Laibbert, and the first was the first was a considerable of the way around the

category as why tired people keep driving at night and why people swim far out into the ocean.

THE FIRST mile or so wan't too bad. In fact, as I was lambering along, I was thinking frequently, positive-ly, "This first mile or so isn't too bad."

and drowing the sortew of the control of the contro

The last six feet or so were a breeze, because I was pretty sure that, if nothing else, I could fall across the finish line. This psychology is of the beating-your-head- against-the-wall-because-it-feels-so-good-to-stop school.

IN PAIRNIESS, and to explain how I came so close to shatering La Badie's record. I should point out that this wast! my first dross-country one year to get in shape, and I come finished country one year to get in shape, and I come finished country one year to get in shape, and I come finished country one year to get in special to the country one year to get in shape, and I come finished country one year to get in shape, and I come finished to the same way to be a series of the country that I've always mangated that No. 27, 28 and 29 were eaten by monatain lions butting in avocaded are of the course.

A bank charge card is actually a loan from the bank incurring interest at the rate of 18 per cent minimally per year. This is in addition to the payment provisions for purchases, which are another expensive matter.

Until you pay back the borrowed money according to the bank's requirements, you are incurring this extra service charge for the privilege of doing business "the modern way."

This is a high price to pay for another so-called convenience. We recommend that you figure out how much our save-and-pay-cash plan boosts the dollar value of your income. You'll be amazed.

Village of Roselle, The Old and New

Roselle is another of our towns that is relatively new as far as incorporation goes, but long-established as a community. The first setters, Silas Mescham and his brothers, Lyman and Harvey, arrived here on March 11, 1833. By the sed of the following year there were 15 families living in what is now Roselle.

Roselle Hough, for whom the town was later named, arrived in 1855 and set up a fax milt at Roselle and Irving Park Rd.—
Hough was credited with bringing the Milwaukse Road railroad through the town. He later became president of the St. Paul railroad, which was reportedly called the

Hough Railroad for a time.

Roselle became the thriving center of a rich farming district during the last quant of the 19th century and the early 20th century.

Population of Roselle now is above the 5,000 mark. From the first public school built in 1870, a one-room building with 35 students, Roselle now has the Lake Park High School plus the Lincoln, Spring Hill and Saulk Popular making erade schools as well as St. Walters Catholic and Trinsity Lutheran

School.

Churches include Calvary Evangelical Free Church, Roselle Methodist Church, St.

Walter Roman Catholic Church and Trinity Lutheran Church, shown at left.

Roselle has a variety of homes such as the elegant established residence shown

All About Pot Plants

We're becoming a nation of pot plant hobbyists. Nearly 7 out of 10 households have living plants growing either indoors

cording to a recent study.

During summer you'll find a number of professionally grown clay-posted asters that can brighten your indoor and outdoor plantings. Colors range through whites, blues and reds. They like to be kept on the moist side, but should not be "drowned".

Save Wear and Tear

Use your head instead of your feet when storing glassware and dinnerware.

Besides saving wear and tear on yourself, you'li be eliminating lots of breakage if you use a simple system for storing those items:

Just put them in the areas where the are most likely to be used.

in the "bar" or "refreshment" corner of the bouse, just as you automatically will store milk or fruit juice glasses near the sink. It's a missake to keep-your bet chinawars, which you use only on special occasions, in a cupboard in the kitcher where it's josted by other dishas is delli use. The place for such fine items is in or near the disings room.

are best for their health.

- IF YOU'RE SELECTING pricesionally grown combination pots, of growing year own for winter color ist doors, try agaratus, alyzaus, tuberous-rooted begoins, astring plants. Other us orlinst plants inchede colous, dahlin forgat-mo-nots, fischaia, gerankuns, in pattens, intransa, lobelias, panales, petunia.

and verbpass.
To enjoy flowering bulbs in the middle
of winter, start bulbs this fall. Plan ahead.
Tulips, hardy narcissus, hyacinths and
crocuses force best when potted in soil.

FOR WINTER PORCING, plant larg builts of these flowers in September of October. Let them grow roots at about 46 degrees for eight weeks or more, under such cover. You can provide this low temperature by burying the potted built, a pit or trench, surrounding and covering with sand, shavings or peat moss.

Another way is to place the potted builts in a box with a couple of inches of drainage material in the bottom. Surround the pots with leaves or peat moss and keep the box in a cool place outdoors.

After the cold treatment, provide a

After the cold treatment, provide a temperature of about 50 degrees for three weeks to encourage stems and leaves to grow and finally move the potted bulbs to surroundings in which the temperature is about 60 degrees for flowering.
